# HELLO

Welcome to the newest **Isabelle Laurier** catalogue with an overview of our most tempting collections. Before you turn this page, we'll just give you a very short intro on how the brand came to what it is today.

Back in 1992, our founding mother Isabelle Laurier started a local ecological gift store in her little Belgian home town Wetteren. **De Laurier** (The Bay Tree) was born. People came from far far away to buy Isabelle's unique little gifts and scents. As a young mother of three, she strongly believed that she could make the world a better place to live in for her kids and the next generations to come.

Isabelle and her husband Diederik started distributing **sustainable cosmetic brands** that they believed in. They could now sell their products on a larger scale and thus increase their impact on the market. After almost five years of distributing these brands in Belgium, the time was right in 2000 to make the next biggest possible step: the creation of their **own brand** and the expansion of their business all over Europe working together with **leading international retailers**.

Our business has always been built on the following principles:

- Long-lasting partnerships with both customers and suppliers
- Social engagement through close cooperation with local artisans for packaging
- Creating and distributing positive, pure and fun products
- Out-of-the-box thinking

In 2012, two of the three sons joined the family business. Pieter and Jan have been spoon-fed the same principles, passion and business feeling as their parents. In 2013, they decided to launch the brand **Isabelle Laurier**, honoring the love of the business' founding mother.

Pieter and Jan are the company's second generation and the managing directors of today. We believe that Isabelle Laurier can make life more enjoyable and create a happy future for the younger generations. We look forward to the day that you want to be part of our journey.

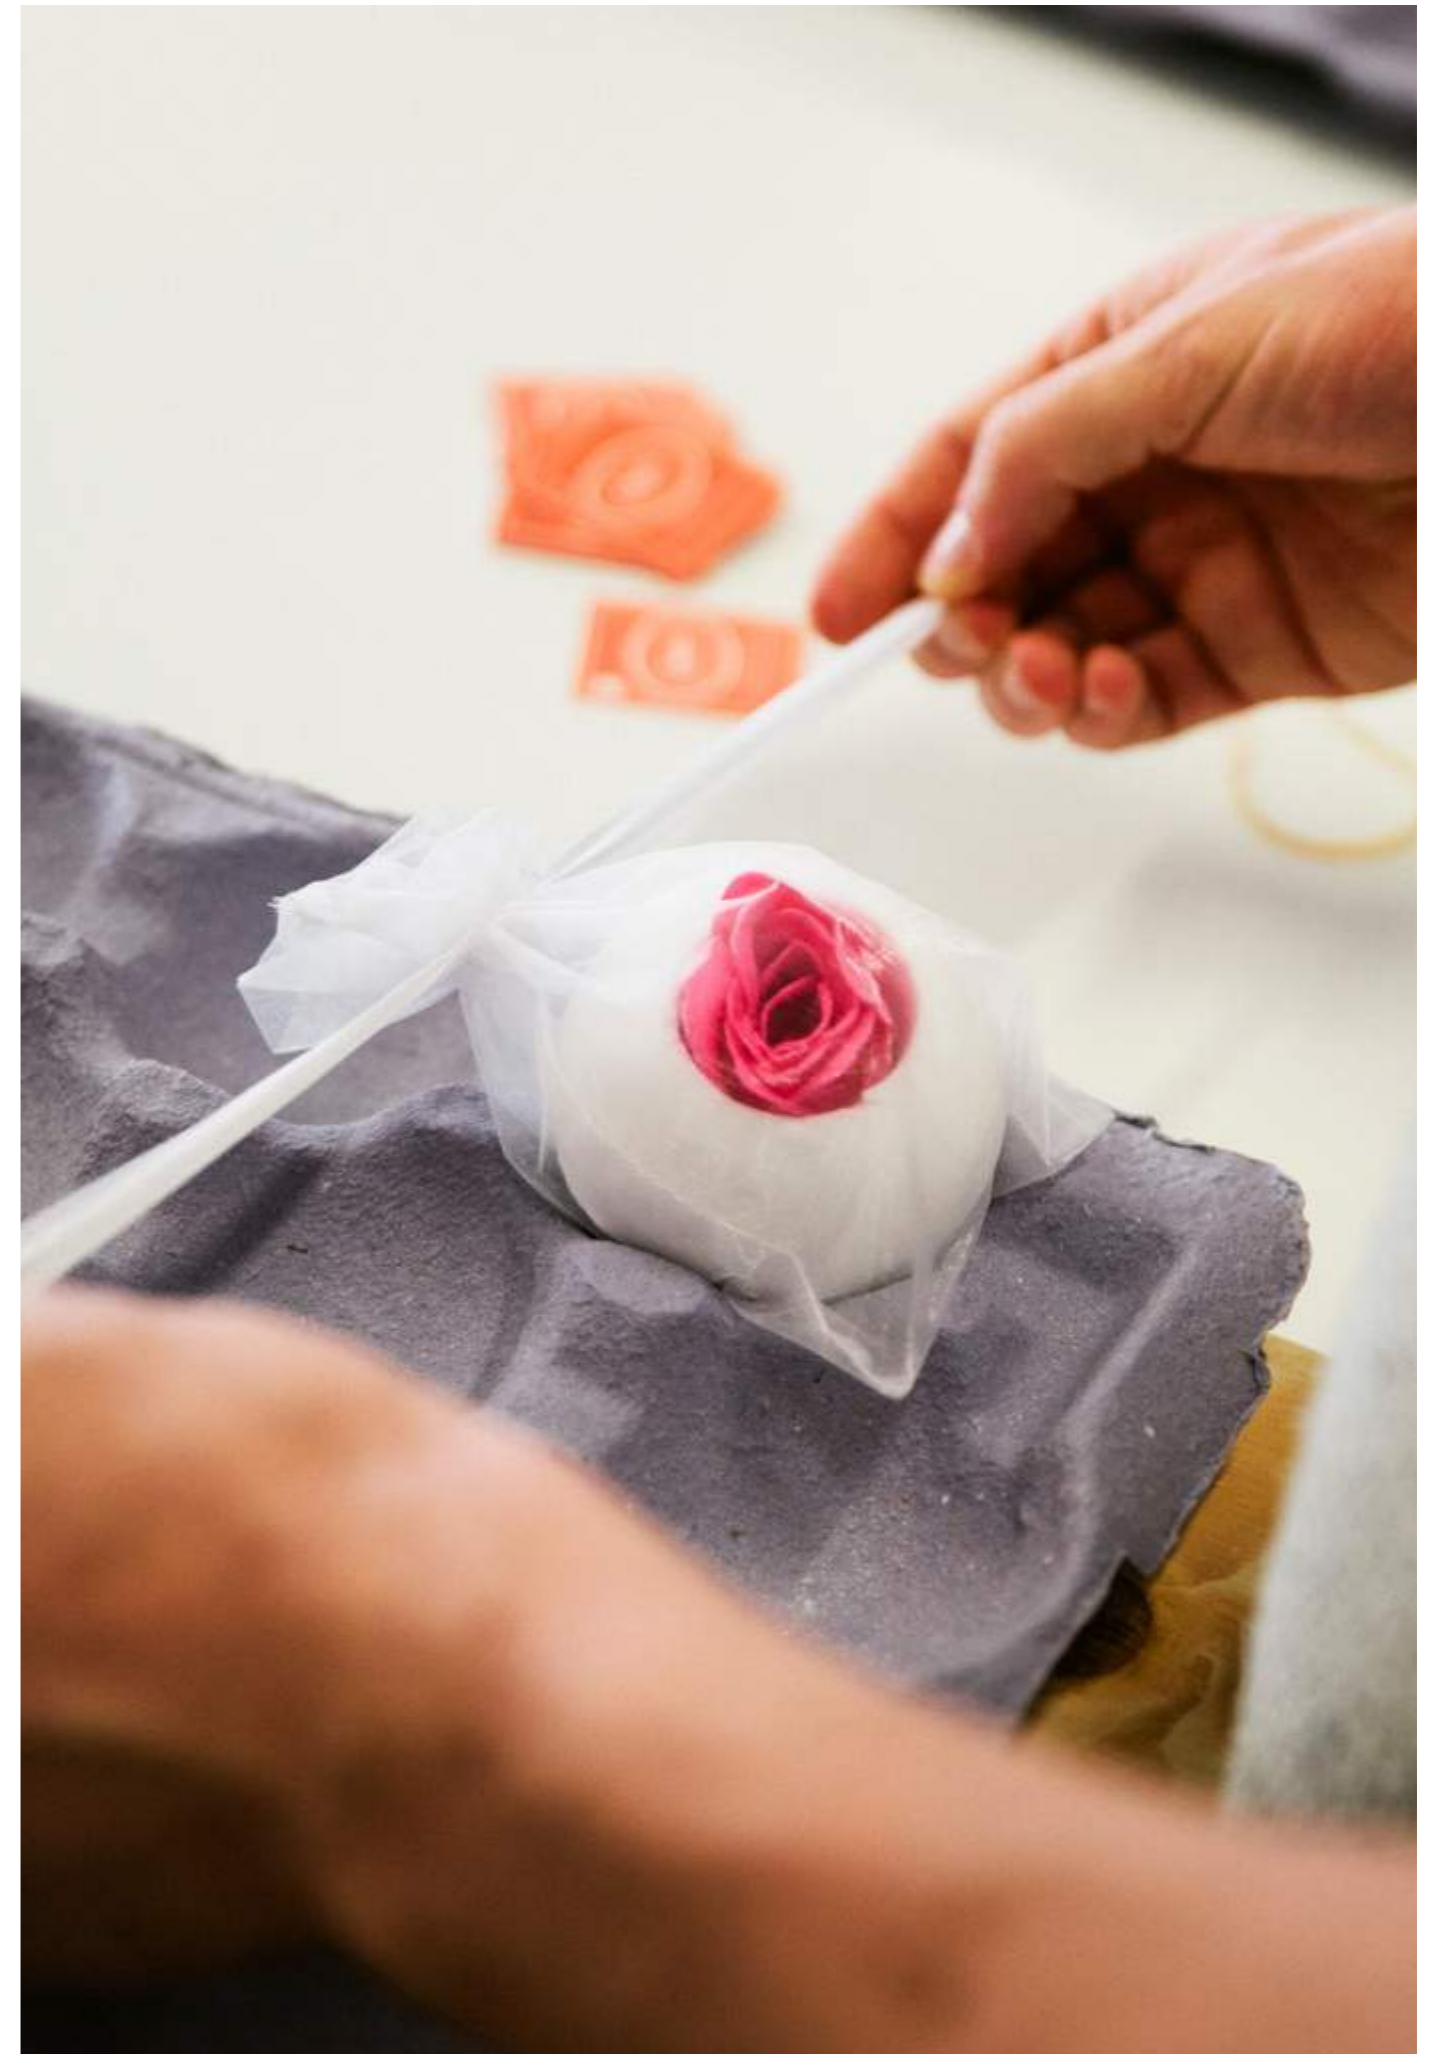

The Family Team  
*Isabelle Laurier*

# PRODUCT STANDARDS

Listening to and understanding our customer's needs has resulted into a standard norm that counts for all the products in our assortment

- All products are labelled in 7 languages: English, French, Dutch, German, Swedish, Spanish & Italian.
- All products are packed in small cartons and Displays to avoid a massive stock in-store
- All products are barcoded according to ITF 14 system for all 3 packaging levels: product, inner carton and shipping carton.
- All cosmetic products are in compliance with EU regulation 1223/2009.

# OUR CONCEPTS

Isabelle Laurier has developed an effective system of visual merchandising which presents the consumer an abundance of exciting top-selling products in a compact retail space.

Ask for a custom built shelf scheme or select one of our merchandising units, made from European pinewood:

- Double sided (80 cm x 160cm x 50 cm)
- Single sided (80 cm x 160 cm x 30 cm)
- Single sided small (50 cm x 160 cm x 30 cm)
